DETAILInspiration

1. How can I find suitable projects for my research?
2. What kind of information can I find for each project?
3. How can I download suitable projects?

1. How can I find suitable projects for my research?

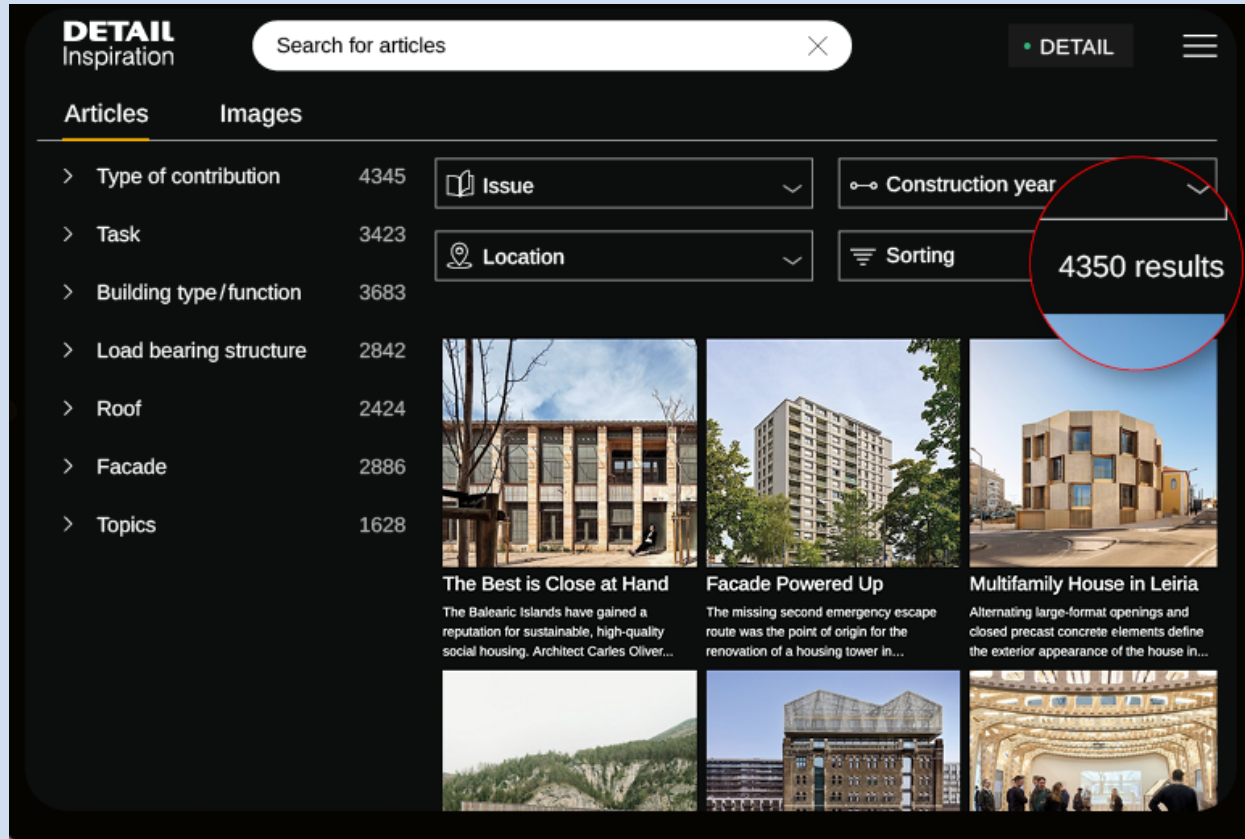

One option is to use the **keyword search**.

Place your cursor at the **search bar** to activate redesigned hierarchical filter. This allows you to search not only for **articles** but also for **images**.

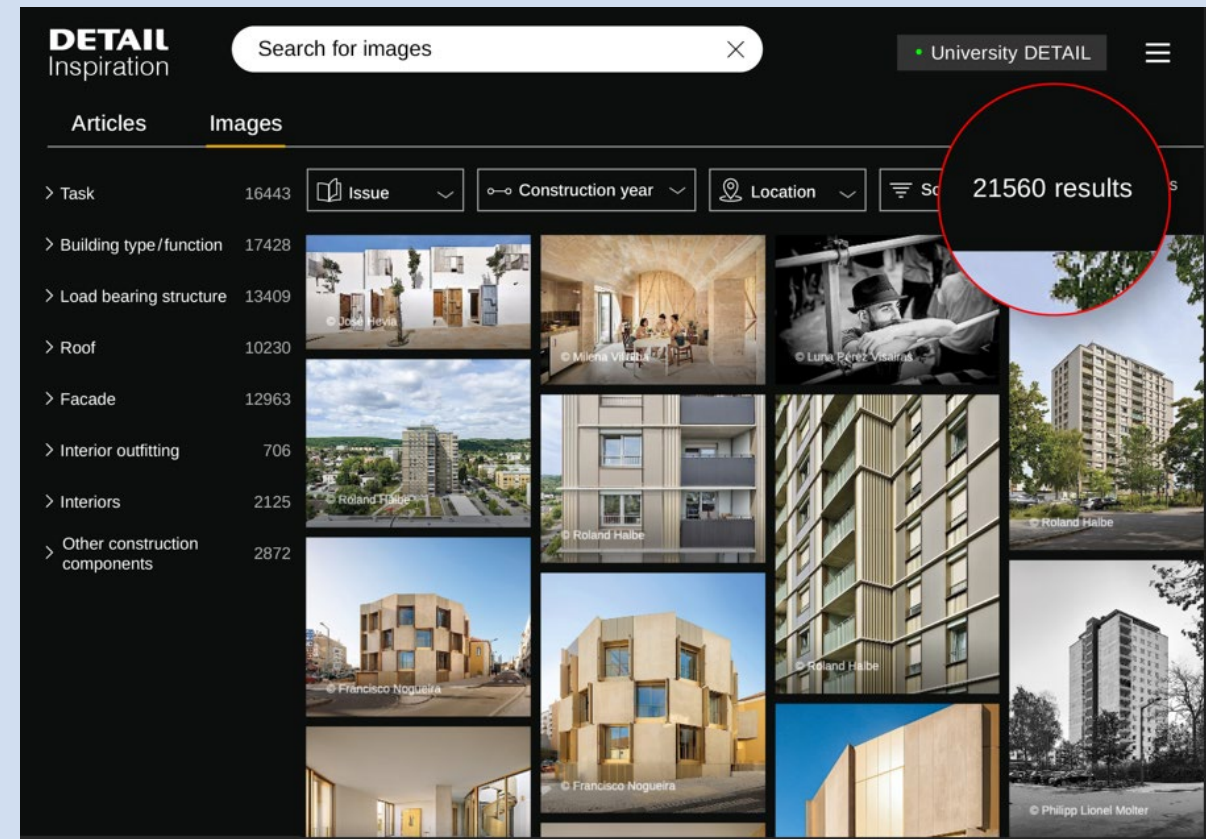

1. How can I find suitable projects for my research?

Articles

You have access to more than 4,000 articles. DETAIL Inspiration includes more than 4,000 projects and it is expanded monthly with new projects. The majority of the construction drawings are available at a scale of 1:20.

Images

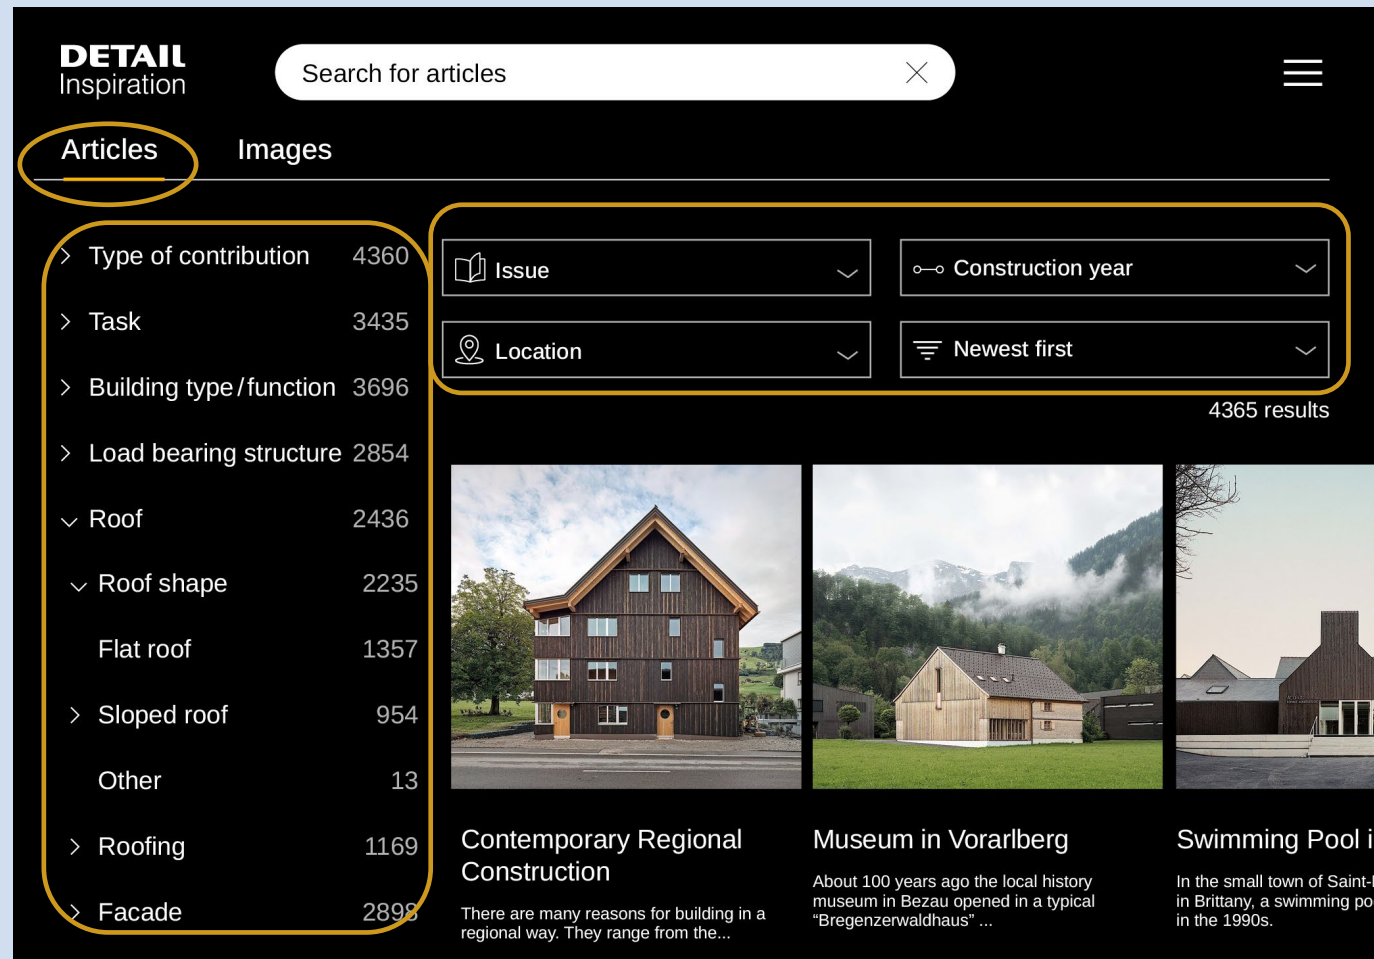

You have access to more than 21,000 images. Each image is linked directly to the corresponding project so that you can find relevant information.

1. How can I find suitable projects for my research?

Articles

You can also use the **predefined categories** for your search.

Use the **filter tree**, for example in the **article search**, which includes options such as:

- Type of contribution
- Building type/function
- Load bearing structure
- ...

Additionally, you can apply **extended filters** to narrow down your results:

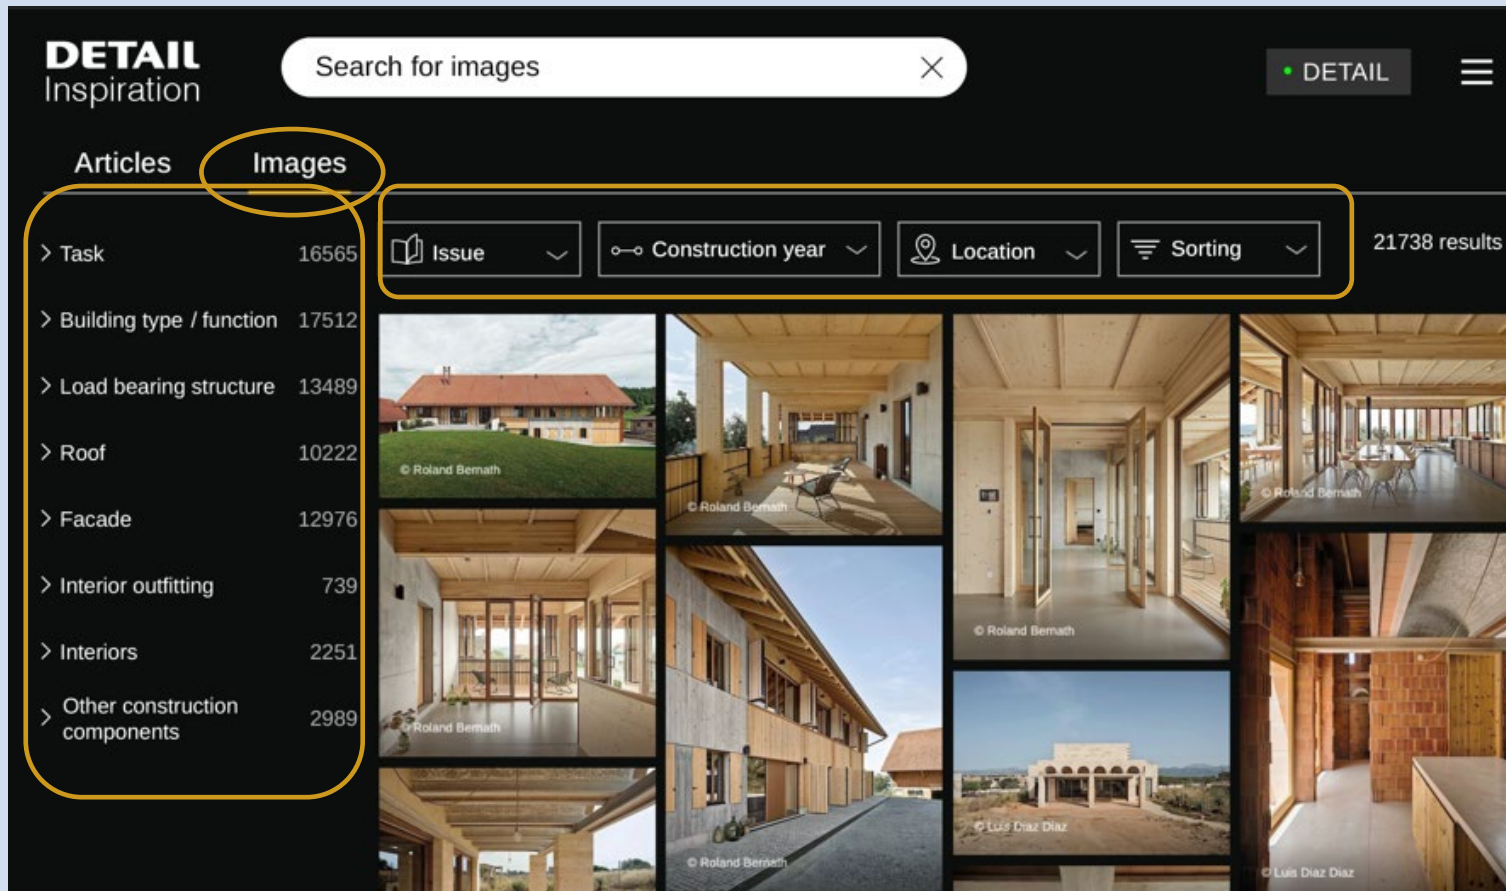

- Issue
- Location
- Construction year
- Sort by the newest first.

These tools will help you find projects that are most relevant to your research.

Multifamily House in Leiria

Issue	Source	Task
05/2025 Facades	DETAIL	New construction, Conversion
Location	Year of construction	Architecture
Portugal, Leiria	2024	Bureau des Mésarchitectures

Alternating large-format openings and closed precast concrete elements define the exterior appearance of the house in the small Portuguese town of Leiria. Prominently located at a traffic intersection on the rim of the historic centre, the building presents its curved main facade to the surrounding streetscape.

The multifamily structure consists of two parts: a two-storey volume erected in the early 20th century and a four-storey addition with a fan-shaped floor plan connected to the corner of the old edifice. The latter is a typical example of local architecture. Its envelope – a facade with yellow render and arched window openings, covered by a red tile roof – was maintained and carefully renovated.

Full version PDF

Open

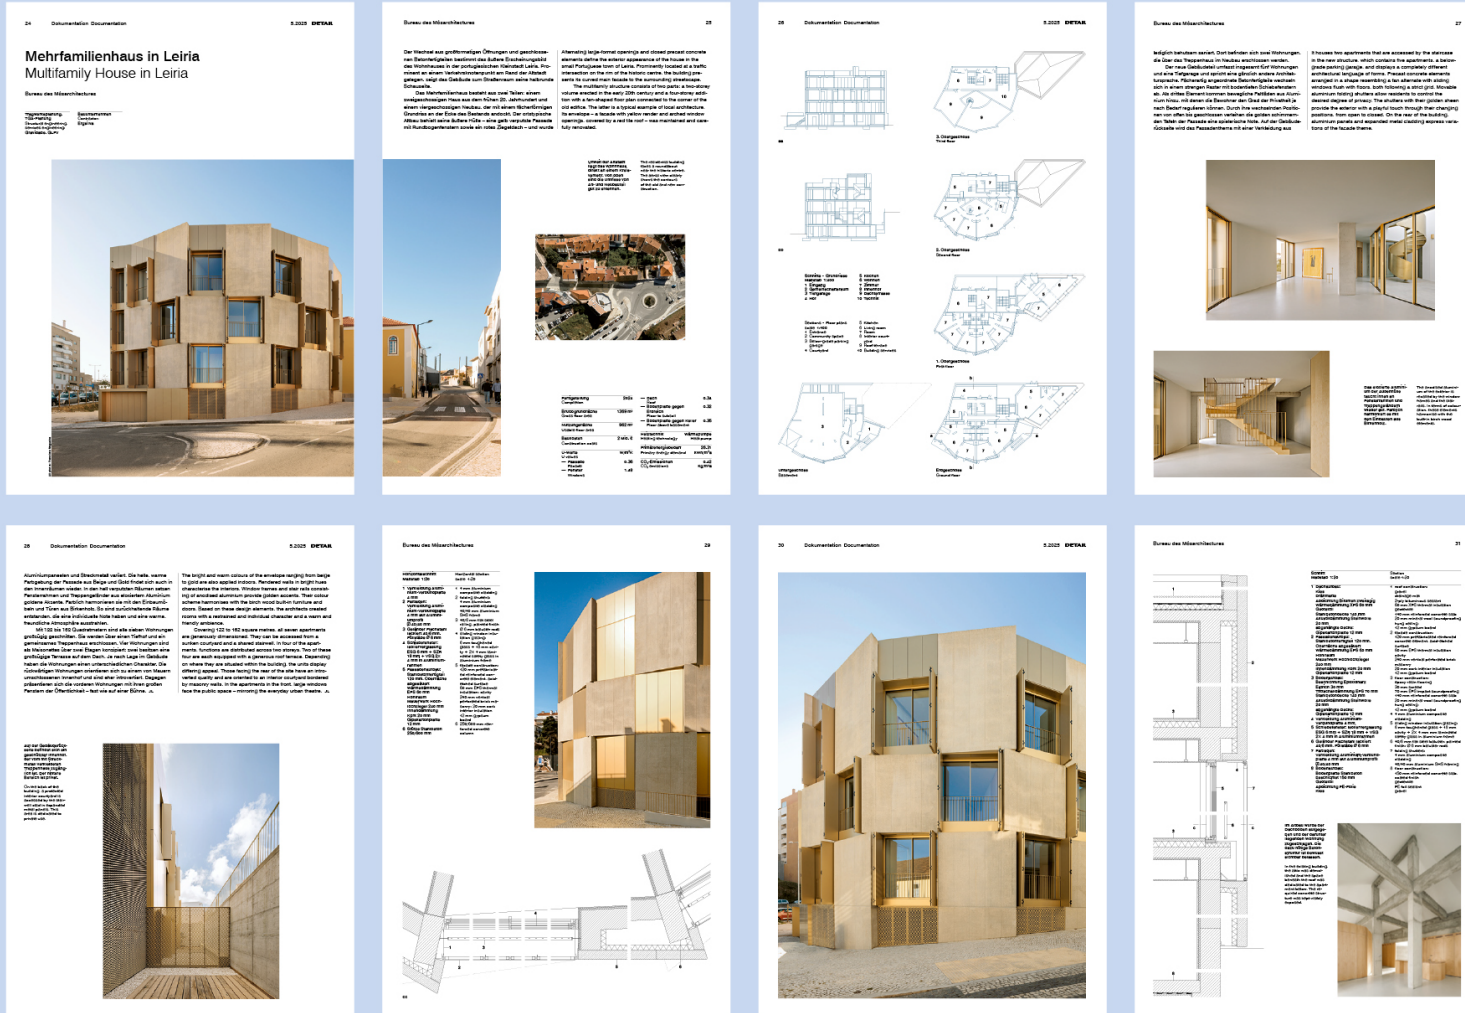

Here you will find a summary of the project including:

- A brief project description
- Image gallery
- Projects participants and manufacturers
- Categories

By clicking the yellow “Open”, button you will be taken to the full **project documentation**.

2. What kind of information can I find for each project?

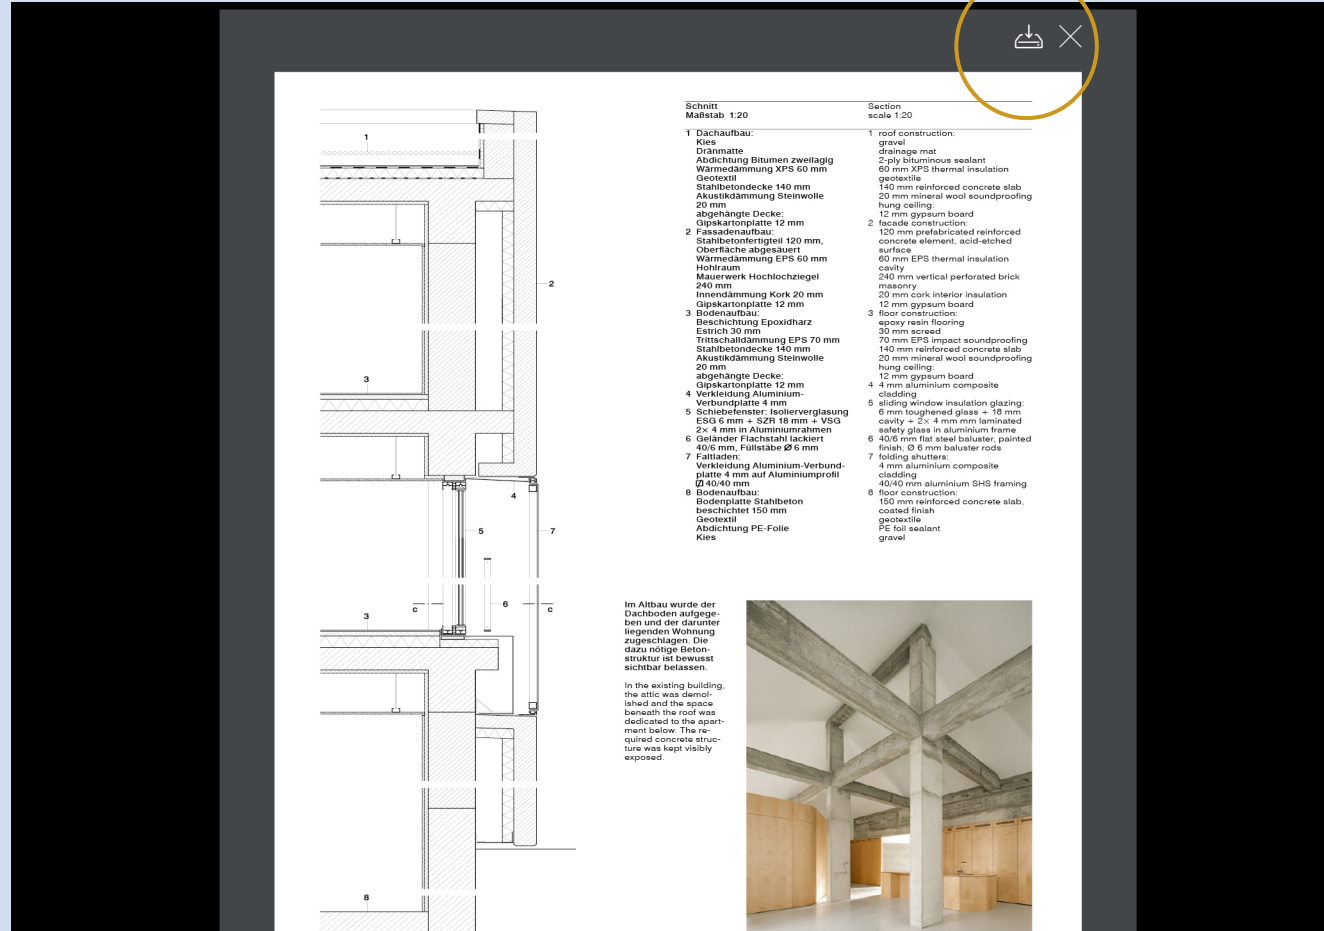

Project documentation

The project documentation may include the following elements:

- Editorial text
- Photos
- Layout plans
- Sections
- Detailed drawings 1:20

3. How can I download suitable projects?

You can download the full project documentation as a **PDF file** directly in your browser and save it to your computer.
